Once again we are selling coffee produced by Second Chance Coffee Company under their brand "I Have a Bean". There are several reasons we have chosen this coffee company. One is their mission of employing post-prison people; men and women who many consider to be "not worth the trouble". Another is the fact that they only select coffee from the top 1% of coffee in the world. They are a local company located just down the road in Wheaton, IL. You can find much more of their story at their website: www.ihaveabean.com.

Please make Checks payable to Bloomingtondale Church Youth Group.

This blend is custom made for Bloomingtondale church. Coffee beans are seasonally harvested; and much like people, they change with the season. But the beans selected for the Bloomingtondale Blend are always roasted in the top 1% for quality, so you can enjoy great tasting coffee no matter the season.
